Re: Letter of Recommendation for Mr. Weiqun Chen

To Whom it May Concern:

It is with great pleasure that I provide this letter of recommendation for Mr. Weiqun Chen. Mr. Chen is a graduate student in electrical engineering at the University of Cincinnati (UC), having completed Bachelor's and Master's degrees at Huazhong University of Science and Technology. For the past four years, Mr. Chen has provided programming and hardware/software support for the School of Planning in the College of Design, Architecture, Art and Planning at UC. It is in this connection that I have come to know Mr. Chen and observe his technical skills, as well as his human qualities.

Mr. Chen has proven himself over and over again as an exceptional asset for the School of Planning. He has a wide breadth of knowledge and expertise with respect to computer support. He is an extraordinary problem-solver. He is a self-starter, able to work independently to resolve complex technical issues through systematic problem definition, and the careful development and implementation of innovative solutions. Needless to say, he has become highly valued for his technical competence.

Perhaps one of Mr. Chen's greatest attributes is his to work with people from a variety of backgrounds. As part of his responsibilities, he has worked closely with other IT professionals, as well as with college professors and staff with a wide range of computer knowledge and expertise. Often he has been called upon when there is an immediate problem, and others expect him to make their problem his first priority. Mr. Chen invariably responded in an expedited, yet calm and systematic manner. He is able to communicate in a clear, direct way, and those who work with him know that he will follow through on his promises.

Also, for those who might consider hiring Mr. Chen, it is important to recognize the importance of his pleasant, cheerful personality. While he works very hard, he is always able to smile. He has contributed to a positive work environment that undoubtedly has increased the productivity of all those around him.

In sum, I want to give Mr. Chen my wholehearted recommendation. If you have any questions my knowledge of him, please feel free to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read 'C. Auffrey', with a long, sweeping horizontal stroke extending to the right.

Christopher Auffrey
Interim School Director and Associate Professor of Planning
